**The 1st IEEE Conference on Technologies for Sustainability (SusTech) will be held
in conjunction with the 2013 IEEE-USA Annual Meeting in**

Portland, Oregon on August 1st to 4th, 2013.

This event will bring together over 200 engineers and other technology professionals for two different, but related events. The first is a conference on emerging technology to promote sustainability and efficiency. The second event is the IEEE-USA Annual Meeting, which will be attended by leaders from local engineering communities around the country.

The conference is organized in six tracks with feature distinguished invited speakers in each track:

- Alternative Energy (solar, wind, tidal, fuel cells, energy harvesting, nuclear)
- Energy Efficiency (building design, auto electronics & fuel economy, computer farms, aviation)
- Electric Vehicles (motors, drive controls, batteries, environmental & power distribution impacts)
- Smart Grid (communications, control, power electronics, energy storage)
- Electronic Materials (ROHS/no-Pb/CFCs, life-cycle assessment, global materials supply, nanotechnology & health/environment)
- Quality of Life (EM spectrum allocation, global warming, autonomous vehicles, water, medical electronics, global education & human resources)

Sponsorship/Exhibitor Opportunities

The Annual Meeting and SusTech Conference will be held 1-4 August 2013 at the Double Tree by Hilton in Portland, OR. It's an opportunity for your organization to promote your activities to over 200 attendees in the sustainability technology field. The IEEE-USA Annual Meeting provides an unparalleled access to IEEE's U.S. regional and national leadership volunteers.

Contributions to the IEEE SusTech Conference by organizations and individuals qualify as tax-deductible contributions. Sponsors receive significant recognition before, during and after the first SusTech Conference, making a lasting impression on all attendees.

SUSTECH 2013 is co-sponsored by IEEE-USA, IEEE Region 6, and the Oregon IEEE Section
